The Golden Section
Hans Walser
Sep 13, 2001
The Golden Section has played a part since antiquity in many parts of geometry, architecture, music, art and philosophy. However, it also appears in the newer domains of...
It is now widely recognized that the physical environment has an impact on the physiology, psychology, and sociology of those who experience it. When designing a critical care facility, it is important to consider the impact of the environment on patient outcomes. Examples include the use of natural light, access to green spaces, and the design of patient rooms to promote comfort and well-being. Additionally, the implementation of evidence-based design principles can help to improve patient care and reduce costs.
